

Policy of Health & Safety at work

The company has developed and implements a Health and Safety System at Work in accordance with the requirements of ISO 45001:2018.

The main motivation is:

- the training of her human resources for the good and safe performance of their work, in a way that is in accordance with the requirements of the system,
- ensuring the protection of the health and safety of her employees and partners.

The company is committed to:

- The provision of safe and healthy working conditions for the prevention of occupational injuries and diseases
- Compliance with legal and other requirements relating to Health and Safety at work
- Eliminating risks and reducing the risk of Health and Safety at work
- The continuous improvement of the Health and Safety at work management system
- Consultation and participation of employees and their representatives in the design and implementation of the Health and Safety at work management system.

In the context of the continuous improvement of the System, the Management sets targets for the Health & Safety at work, which are reviewed annually in terms of their degree of implementation, approved new or modified older depending on the performance of the company and the new conditions in her field of action.
